

KlimALEZ Stakeholder Workshop

Digital Innovations in Agricultural Insurance

18 November 2021 | 8.30 - 12.30 CET (Berlin time) | online

The project KlimALEZ aims at developing and piloting index-based agricultural insurance program for various Central Asian countries. On November 18, the KlimALEZ team will organize an online dissemination workshop for stakeholders from business, politics and research. Presentations and discussions will focus on project findings in terms of opportunities of digital tools for risk sharing in agriculture as well as practical challenges of implementing them in the Central Asian context.
